

Getting started with GCMS

Start using the GCMS

For professionals with little to no experience in mass spectrometry

Course Topics

- Difference between analog and MS detector
- Basic principles and terminology of mass spectrometry
- Construction of a mass spectrometer
- Discover whether the analog GC analysis can also be performed on MS
- Quantify with MS
- MS library
- 2 practical sessions
 - Analog and MS measurements
 - Full scan and SIM measurements
 - Use of MS library
 - Quantification of co-eluting peaks using MS

18 - 19 march 2025
9 - 10 december 2025
